(we used party glasses)

8PLY 100G YARN YOU'LL need:

- 1 x ball of blue yarn (C3)
- 1 x ball of purple yarn (C4)

BLUEY

PROJECT LENGTHS:

Grownups = we've made a 105cm outfit

Kiddos = we've made a 50cm outfit

This pattern is easy to adjust for any specific size.

1. Calculate the length of the costume you'd like
2. Add or subtract the number of C1 rows from the Main Blanket pattern (1 row equates to 1cm of length)

ABBREVIATIONS KEY:

sts = stitches

mc = magic circle

ch = chain

dc = double crochet

inc = double crochet two stitches in the same stitch, increasing the amount of stitches.

dec = double crochet two stitches together (or decreasing using which ever method you prefer)

Whole project is done through both loops unless otherwise specified.

The total amount of stitches you should have will be in parentheses at the end of each row. Meaning that when you see (20) at the end of a row, it means there will be 20 stitches in that row.

Any repeated actions within a row will also be in parentheses, alongside the amount of times that action will be taken in that row. Example. (2dc, inc) x 10 means two double crochets then increase on the third, repeat this ten times.

(Note: We use the term double crochet in this pattern, but you might call it a single crochet where you live)

In this pattern we will also note when to change colours, and will note when to change colours using their designation (example: 20sts in C1, 5 sts in C2, 20sts in C1).

GLASSES:

The rest of the pattern will work for grownup and kiddo sizes!

The glasses used are plastic party glasses, you can also make your own using craft wire if not possible to find.

Alternatively you could do this on two (2) rings and attach them both at the centre and then sew together to the top of the blanket.

Project to be completed in C4 and with a 3.5mm hook.

Glasses facing forward, starting either side on the rims on the left side of the temple, you have to crochet around.

To do this, have the yarn slip-knotted onto your hook and catch the yarn around the rim, coming through the centre, now catch the yarn again from above the rim, pull the yarn through and then 1ch. Continue around the ring, pulling the yarn around the rim of the glasses but now double crocheting.

Proceed to do half of the glasses so they end up with 20 sts before the bridge, then from the other side of the bridge, do another 20dc.

You should now end up with 40 sts in total around the rim of the glasses. Do not cut the yarn. (40)

GLASSES FEATHERS:

CENTRE

Row 1: Going into the beginning of the ring, 2dc, 1ch. (3)

You will now be going back and forth along the row, starting from the second sts.

Row 2-3: 4dc, 1ch. (5)
Row 4: dec, 2dc, 1ch (4)
Row 5: dec, 1dc. (2)

LEFT AND RIGHT

With the center feather completed, you can start the left and right feathers.

You will start these five stitches from the first stitch of the center either side (both begin five stitches away).

To know if you are doing it right, each resulting feather should have a one stitch space between.

Row 1: Slipstitch and then 1ch, 3dc along the row, 1ch (5)
Row 2-3: 4dc, 1ch. (5)
Row 4: dec, 2dc, 1ch (4)
Row 5: dec, 1dc. (2)
Slip stitch, cut yarn and then sew back into project.

EYEBROWS:

Starting project in C3 and with a 3.5mm hook.

Row 1: 11ch (11)

Row 2: Into 2nd sts, 10dc, ch, 10dc, ch (22)

Row 3: 22dc (22)

Slip stitch leaving long tail, sew the two eyebrows onto the main body along Row 8, leaving approx 4 stitches space between the two eyebrows. Sew any excess yarn back into the eyebrows.

LET'S GO RITA!
