

DIY: TERRIERS SWORD + SHIELD

WHAT YOU'LL NEED:

- 1 cereal box
- PVA glue
- Paint and paintbrush/roller
- Scissors
- Ruler
- Pen/pencil
- 1 x small yoghurt tub

MAKING YOUR SHIELD:

1. With the help of a grown-up, cut the top and bottom flaps off of your cereal box.

2. Next mark a line down the middle of the side of the box.

3. Cut along your line to cut the box in two. One side will become your shield! Don't throw away the other half though as you'll need that later.

4. Now you can paint your shield. You can also add any other decorations you like.

5. Once your paint is dry, use some extra cardboard and glue to attach a handle to the back of your shield.

MAKING YOUR SWORD:

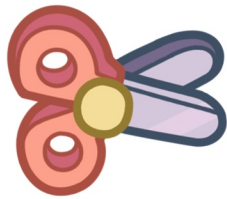

1. Take the other side of the cereal box, and draw two parallel lines, each the width of your ruler (like this).

2. Then cut along the furthest line so both sections are together. You can glue these matching pieces together once folded over.

3. Outline your sword and cut it out.

4. Use the yoghurt tub to make the handle by cutting a slit in the bottom of the tub and sliding it over your sword.
