Bingo:

- Black
- White
- Orange
- Brown
- Pale yellow/beige
- Green

Chattermax:

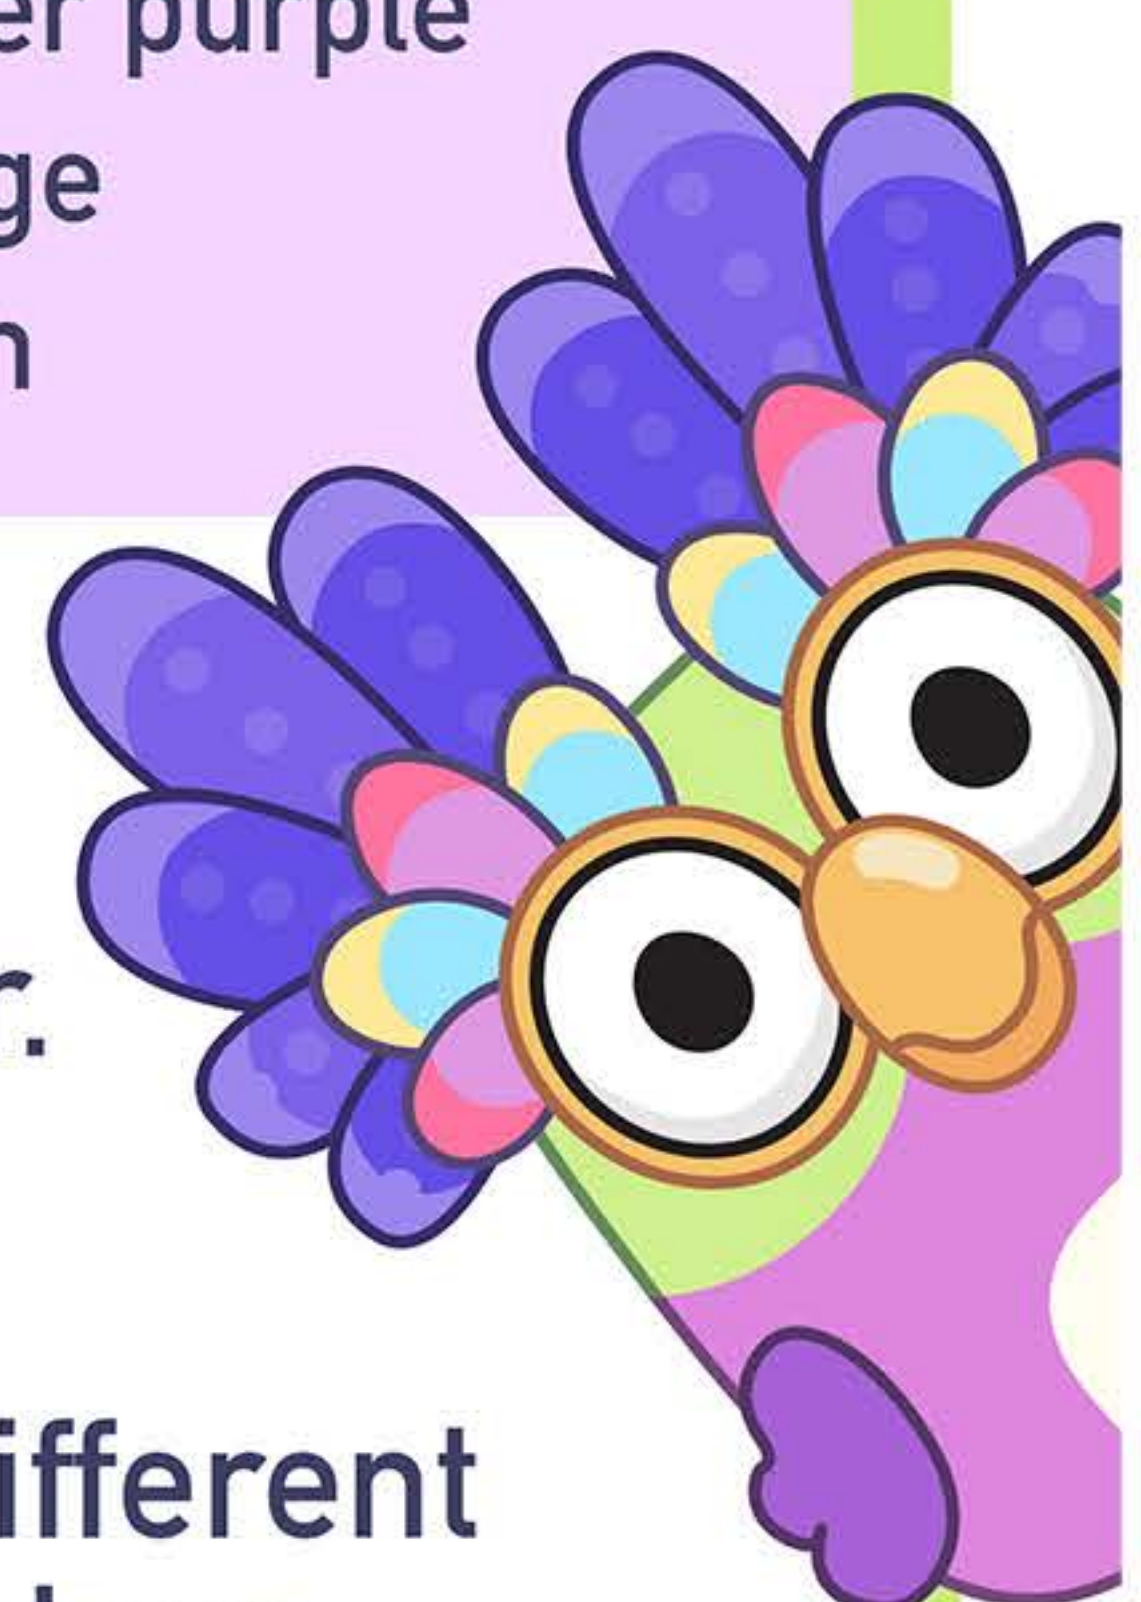

- Black
- White
- Purple
- Darker purple
- Orange
- Green

INSTRUCTIONS:

1) Print out the accompanying template page for your chosen character. Cut out each shape on the page. Ask an adult for help using scissors!

2) Now use a pen to draw around those pieces on the corresponding different colours of felt for your chosen character. Draw around these shapes colour side facing touching the felt. For the main body piece of the character, you will need x2 of these, be sure to flip this piece and draw around the reversed side.

3) Now cut these pieces out from the felt. Keep hold of any scrap pieces of felt from these cuttings.

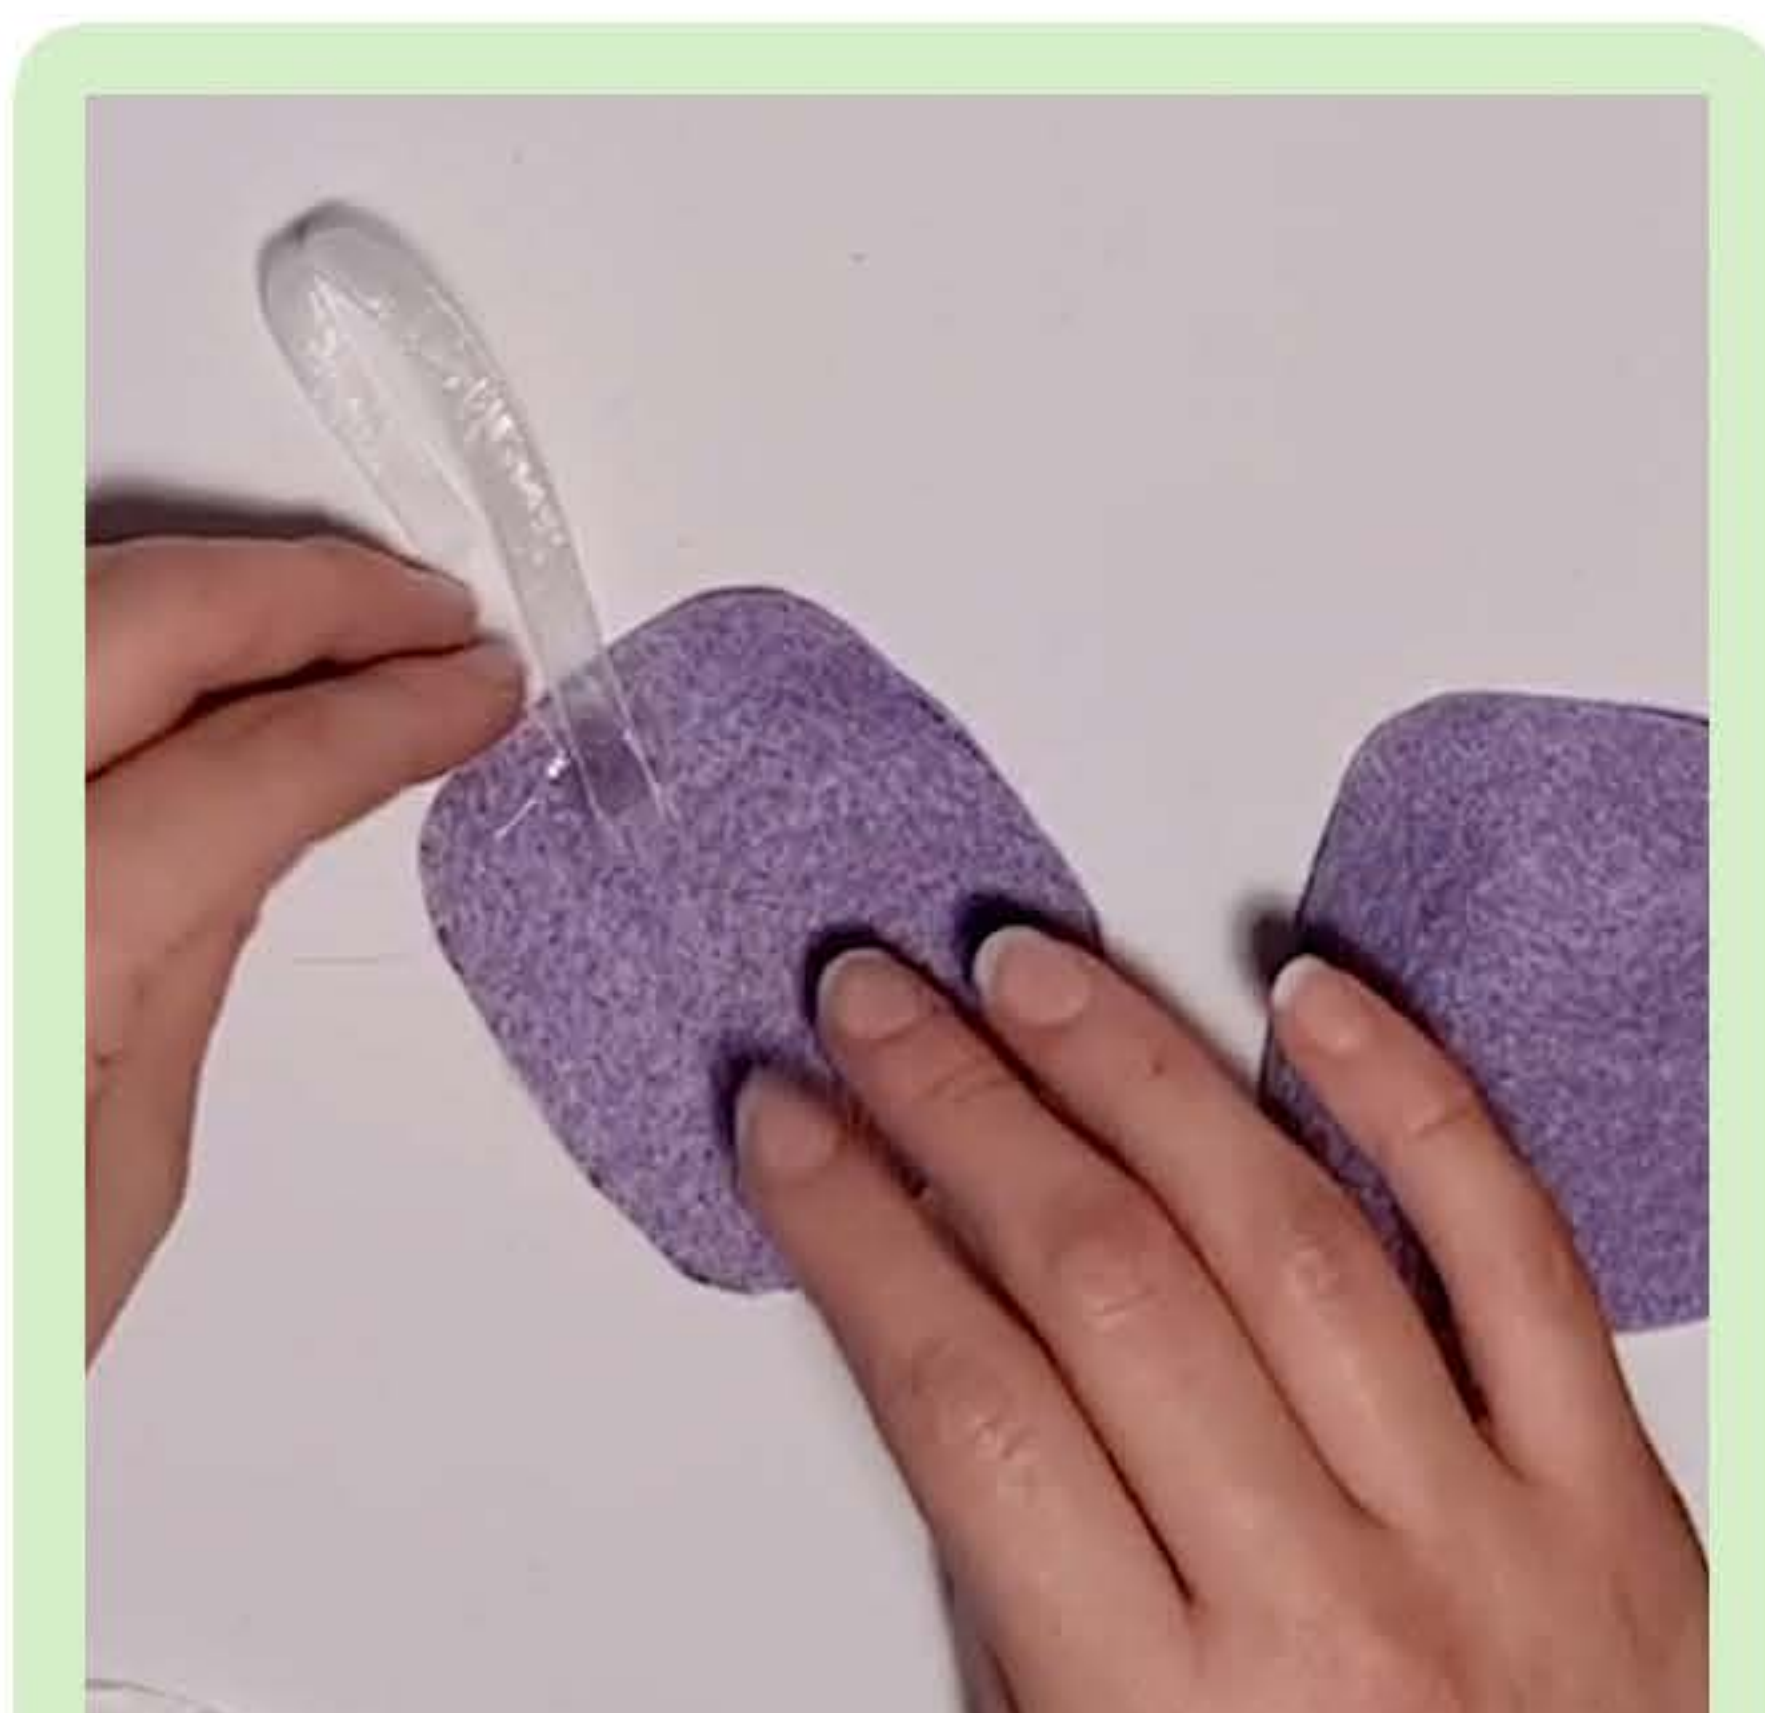

INSTRUCTIONS (CONT'D):

4) Cut off 10-12cm of ribbon (or any preferred length). Then locate your two main body pieces of the character. Fold the ribbon in half and hot glue the unfolded end of the ribbon to the bottom body piece layer at the top to create the ornaments hanging string. Wait for glue to dry completely.

5) Layer the two main body pieces on top of each other. Using the needle and thread, sew these pieces together using a blanket stitch. Don't sew all the way around as you need leave an opening to be able to put the stuffing in later. Alternatively, you can hot glue them, but be sure to leave a pocket opening so it can be stuffed later.

6) Organise and layer the remaining felt cut outs in look like the reference image of the character. Then, carefully hot glue the pieces in place. Wait for glue to dry.

7) Stuff the ornament with any scrap cutting of felt. You may want to trim these cuttings into smaller pieces. Alternatively, you can use cotton wool instead or use a mixture of the two.

8) Once the stuffing is added, close the pocket using the hot glue gun.

9) Optional: you can further decorate the ornament by adding glitter, sequins or even beads!

10) Put up your new ornament on a Christmas tree or anywhere festive!
